

AMENDMENT TO THE CLAIMS

1. (original): A method to prepare an expression profile of a tissue which method comprises the step of extracting RNA from an intact sample of said tissue cultured in a three-dimensional collagen sponge-gel culture.
2. (original): The method of claim 1, which further includes subjecting said RNA to analysis to obtain expression data.
3. (original): The method of claim 1, which further includes converting the extracted RNA into cDNA.
4. (original): The method of claim 3, which further includes preparing labeled cRNA from said cDNA and
analyzing said cRNA using microarray analysis.
5. (original): The method of claim 1, wherein said tissue is tumor tissue.
6. (original): The method of claim 5, wherein said tumor is of the breast, lung, colon, liver, stomach, pancreas, prostate, head, neck, ovary, or brain.
- 7.-9. (canceled)
10. (original): The method of claim 2, which further includes preparing a prognosis based on said data.
